

### 1. Clean the surface.

If you use glass cleaner give it a few minutes to dry.

### 2. Secure with tape.

Using a ruler to measure and ensure it is level, tape the vinyl graphic in place.

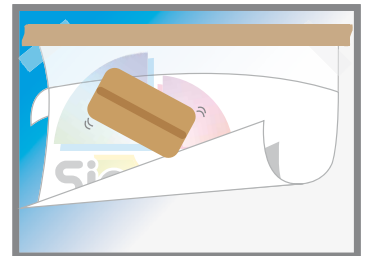

### 3. Tape in place.

Once you are happy with the placement, apply a heavier tape to secure the graphic.

### 4. Remove backing paper.

Carefully remove the backing from the transfer tape and begin applying pressure using a squeegee or credit card.

### 5. Apply the graphic.

Continue to apply pressure with the squeegee or credit card to fully adhere the graphic. Work from the center out to the edges to remove air bubbles.

### 6. Remove transfer tape.

Remove the tape from the top of the graphic and carefully remove the transfer tape.
